

7-3-09

The Salvation Army has helped my family, in several ways they have given us hope, stability, and a sense of direction.

With the sense of hope we now know we have a much brighter future.

Given ~~us~~ stability, we don't have to worry where we will be laying our heads at night, as we know that we have a actual place, we can call our home with our own things may that ~~be~~ be small compared to others, but huge in our eyes.

The sign guides us a sense of direction taking our hand and leading us in the direction, we need to continue on with our, new found freedom from drugs, and alcohol. Showing our family, everyday that the Salvation Army, is our new found family with many that have been at the Salvation Army.

~~What~~ what holds for our future. We just wanted to say God Bless you all, and thank you, for caring, and giving us a Second Chance at hope, peace, serenity ^{Mr Crowley} and Mrs Pearson
